

MCAG is an expert at identifying and recovering non-traditional high margin revenue for all types of organizations from class action settlements. We have experience and credibility in getting the most for your claim with the least effort on your part. Clients have received hundreds of millions of dollars from settlement funds via our Settlement Recovery Service (SRS).

We don't create class actions, we continually search for class actions that have already settled and have funds available for our clients. Monitoring settlement opportunities and effectively filing claims is a complex and resource-intensive process. Engage with our experts so you can focus on core tasks that help you manage and grow your business, while we optimize your returns from class action settlements.

TYPES OF SETTLEMENTS MCAG MANAGES

Product

e.g. manufacturers engaged in antitrust, price-fixing, etc.

Healthcare

e.g. insurance claims were not paid correctly

Pharmaceutical

e.g. an organization overpaid for drugs purchased on behalf of its employees

Financial

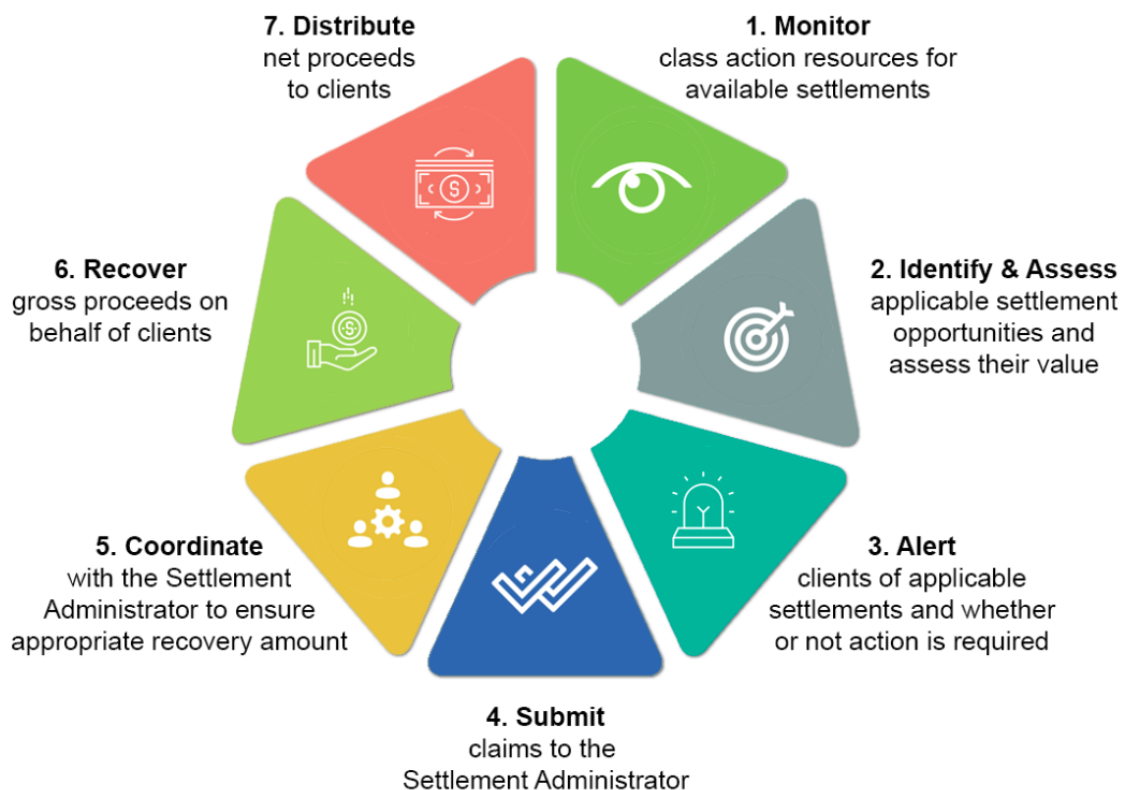

e.g. merchants overpaid fees, financial markets were manipulated by large banks

SETTLEMENT RECOVERY SERVICE PROCESS

- ▶ MCAG aligns its incentives with yours and charges a contingent fee percentage of any recoveries we are able to obtain on behalf of your organization. No upfront cost. No recovery = no fees.

- ▶ Via our vast database, we have the unique ability to construct optimal claims when limited information is supplied by clients. We shepherd the claim through the process with settlement administrators, and support the claim through any audit process.

- ▶ We provide dedicated account management as part of our SRS. MCAG does all the data analysis, forms preparation and filing, claim negotiation, and distribution of cash recoveries.

DO NOT LET ANOTHER OPPORTUNITY PASS YOU BY!
